Mr. Paul Argo
c/o Acoustic Cleaning Systems, Inc.
PO Box 609
Alexandria, AL 36250

Dear Paul,

Please accept our letter of appreciation for your products and customer support on our recent Environmental Retrofit Project for AECI's Thomas Hill Energy Center. The thirty-two sonic horns (Model AC-75C) were easy to install to the new SCR reactors and have performed very well to date.

As a mechanical contractor, we have installed other brands of cleaning devices over the years, and we can highly recommend your product as an equal in terms of both quality and easy of installation. Where ACS out performs its competitors is in its customer service. Paul and his employees are very dedicated to timely deliveries; from original quotations to drawing submittals to product delivery and technical support.

We look forward to working with ACS on the next retrofit project and would recommend their products and services to all of our utility and process customers.

Sincerely,

A handwritten signature in black ink, appearing to read 'R Macdonald'.
